Graduate Software Engineering student with practical experience building real-world solutions and collaborating in cross-functional teams.

Education

BEng Software Engineering (1st Class Honours)

Sep 2022 – May 2025

Sheffield Hallam University

Experience

Sheffield Hallam University

Jan 2025 – May 2025

Student Mentor & Teaching Assistant

- Provided hands-on support to over 40 students during Mobile App Development labs, debugging Flutter and Android Studio projects.
- Helped 20+ students per session overcome technical challenges on average, significantly improving code quality and confidence.
- Delivered tailored 1:1 guidance on app architecture and best practices, boosting assignment success rates and student satisfaction.
- Assisted a lead lecturer in aligning lab content with module learning objectives to enhance curriculum delivery.

Scrapays

Jun 2023 – Aug 2023

Software Engineering Intern

- Delivered new front-end features using React.js and Next.js, enhancing user experience and engagement.
- Designed and implemented responsive UI components with Tailwind CSS, contributing to improved usability across devices.
- Developed and optimised Express.js APIs with MongoDB, ensuring low-latency queries and reliable performance.
- Collaborated closely with UX, QA, and DevOps teams to speed up release cycles and adopt CI best practices.

Personal Project

Automated Price Comparison App

2025

- Designed and developed Python microservices (Fast API + Flask), containerised with Docker, enabling automated grocery price comparison and forecasting across major UK retailers.
- Built Selenium-based web scrapers to collect dynamic pricing data in real-time, supporting accurate market analysis.
- Integrated PostgreSQL (JSONB) for efficient storage and querying of product data, enabling flexible analytics.
- Created a mobile front end using Flutter to present dynamic price recommendations and forecasts with a user-friendly UI.

Skills

Programming- c#, Python, TypeScript, JavaScript

Databases - PostgreSQL, MongoDB

Libraries & Framework - Flask, Flutter, React.js, Node.js, Next.js

Tools & Practices - Docker, Fast API, CI/CD, Git, Selenium
